CURRICULUM VITAE

NAME: Shoichi Ichinose

TITLE: Associate Professor

AFFILIATION: Laboratory of Physics
School of Food and Nutritional Sciences, University of Shizuoka, Japan

MAJOR RESEARCH INTERESTS:

A universal analysis of the mechanical, thermodynamic, and electromagnetic properties of food

1. Universal aspect of the food physical properties
2. Food science research using soft-matter physics
3. Numerical simulation of the viscoelastic properties

EDUCATION:

1981 Graduate School of Physics, University of Tsukuba.
Ph.D. in Physics, "Renormalization of Gauge Theories"

Experience of Research Abroad

12/1987 - 3/1988 Theory Division, European Organization for Nuclear Research,
Geneva, Switzerland
2/1995 - 3/1995 Theory Division, SLAC National Accelerator Laboratory ,
Stanford, USA
9/1996 - 1/1997 DAMTP, University of Cambridge, UK
10/1998 - 11/1998 Brookhaven National Laboratory, USA
9/1999 - 11/1999 Albert Einstein Institute of Max Planck Institute, Potsdam, Germany
11/2002 - 2/2003 DAMTP, University of Cambridge, UK
2/2006 - 3/2006 Institute of Theoretical Physics, University of Vienna, Wien, Austria
2/2013 - 3/2013 DAMTP, University of Cambridge, UK

Experience of Research in Japan

4/1984 - 3/1987 Research Institute for Mathematical Sciences, Kyoto University
