

NAME: Tohru KOBAYASHI, Ph.D.

Professor

AFFILIATION: Laboratory of Molecular Reproductive Biology, Graduate Division of Nutritional and Environmental Sciences, University of Shizuoka, Japan

E-mail. tohruk@u-shizuoka-ken.ac.jp. Tel. & Fax. +81-54-264-5782

RESEARCH APPOINTMENT

1989. Ph.D. Graduate School of Science and Technology, Niigata University, Japan.

1990. Postdoctoral fellow, Graduate School of Science and Technology, Niigata University, Japan (JSPS Postdoctoral fellowship)

1993. Assistant Professor, Laboratory of Reproductive Biology, National Institute for Basic Biology, Japan

2004. Senior Researcher, Laboratory of Molecular Reproductive Biology, National Research Institute of Aquaculture, Japan

2008. Associate Professor, Laboratory of Molecular Developmental Biology, Faculty of Agriculture, Ehime University, Japan

2009 - 2013. Professor, Laboratory of Molecular Reproductive Biology, Institute for Environmental Sciences, University of Shizuoka, Japan

2011 - Present. Professor, Laboratory of Molecular Reproductive Biology, Graduate Division of Nutritional and Environmental Sciences, University of Shizuoka, Japan

SPECIALTY

- Reproductive Biology
- Molecular Developmental Biology
- Endocrinology

RESEARCH INTEREST

- The molecular mechanisms of sex determination and differentiation
- The molecular mechanisms of germ cell differentiation
- The molecular mechanisms of sex change
- The molecular mechanisms of sexual plasticity
