Education

Ph.D.2006,	University of Shizuoka, Shizuoka, Japan Graduate School of Nutritional and Environmental Sciences
M.S. 1994,	University of Shizuoka, Shizuoka, Japan Graduate School of Nutritional and Environmental Sciences
B.S. 1991,	University of Shizuoka, Shizuoka, Japan School of Food and Nutritional Sciences

Experience

2017-Present	Professor, School of Food and Nutritional Sciences, University of Shizuoka, Shizuoka, Japan
2009-2017	Associate Professor, School of Food and Nutritional Sciences, University of Shizuoka, Shizuoka, Japan
2007-2009	Assistant Professor, School of Food and Nutritional Sciences, University of Shizuoka, Shizuoka, Japan
2001-2007	Research Assistant, School of Food and Nutritional Sciences, University of Shizuoka, Shizuoka, Japan
1999-2001	Senior Reseaher, Institute of Environmental Ecology Metocean Environmental Inc.
1997-1999	Researcher, Department of Water Supply Engineering National Institute of Public Health
1995-1997	Researcher, Institute of Environmental Chemistry, Shin-Nippon Meteorological & Oceanographical Consultant Co.,

Research objectives

Our laboratory studies the genotoxicity and functionality of substances in foodstuffs using various evaluation systems in vitro and in vivo. In addition, we propose novel control methods to reduce food-poisoning.

◆ **Present Research**

- 1) Risk assessment of chemicals in foodstuff
- 2) Development of novel control methods to reduce food-poisoning
- 3) Biological functions of plant food and their application to food and beverages
